Sir:

This Letter and Amendment is submitted in response to the International Search Report mailed September 5, 2003, in connection with the above-identified international application.

A Substitute Sheet for Page 10 of the application, containing claims 8-13, is enclosed herewith. The Substitute Sheet differs from that originally filed as follows:

Claim 9 has been amended to recite specifically D having a depth of between 800 and 1000 angstroms. Support for claim 9 can be found in the specification in paragraphs [0019] and [0020], including equation 1.

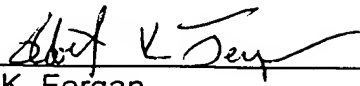

Conclusion

The above amendment is made to provide additional clarity to the subject matter claimed. It is respectfully submitted that the present form of the claims meets the criteria

of the PCT and that a favorable International Preliminary Examination Report is warranted with respect to all of the claims.

Respectfully submitted,

Dated: 10/31/03
